Rubber Cable

Flexible Cable For EV Use

established in 2008, which is the top 10 enterprise in China' s cable industry. Mainly produce Power Cable, Electric Cable, Solar Cable, Rubber Cable, Control Cable, Automotive Cable, High Temperature Cable. Ruitian Cable covers more than 70 thousand squ meters. There are 2 standardized workshops, which cover about 15 thousand squmeters. There are advanced production equipments: more than 20 sets equipments in the doubling, bundling and wrapping area; 12 sets low voltage and 1 set high voltage power cable production lines in the insulation area; 15 sets of cabling machines in the cabling area; 38 sets high speed braiding machines in the shielding area; 14 sets production lines in the outer sheath area. And have more than 200 sets of testing equipments. Ruitian Cable has more than 200 workers: there are 16 workers in the research and development department; 9 workers in the quality control department; 105 workers in the production department; 59 persons in the sales department; 12 persons in the after selling service department , 18 persons in the delivery department; 8 persons in the finance department. Ruitian Cable has the professional research and development center: 2 senior engineers, 6 engineers, 8 senior technicians, which can guarantee our customers' high quality requirements. Has a strictly quality control department: 3 quality inspection engineer, 6 technicians, which greatly improve and guarantee the production capacity and cable quality.
